

Change Your **Brain**, Change Your **Life**

Neuroplasticity and Learning

A presentation by:

Barbara Arrowsmith-Young,
Founder of the Arrowsmith Program
Author of International Bestseller
The Woman Who Changed Her Brain

Barbara Arrowsmith-Young is recognized as a pioneer, as the creator of one of the first applications utilizing the principles of neuroplasticity to overcome learning disabilities.

Why Attend?

- ✓ Gain an overview of Symbol Relations Reasoning exercises and research
- ✓ Find out about Barbara's journey of discovery, the lines of research she combined and the outcomes achieved over 40 years
- ✓ Appreciate the range of cognitive 'glitches' leading to learning challenges
- ✓ Understand the principles of neuroplasticity and the factors leading to brain change
- ✓ Get an insight into the latest research into neuroplasticity, learning and Arrowsmith's innovative educational approach

Hosted by:

Camperdown Academy &
Our Lady of the Rosary School

'Barbara's story...is truly heroic,
on par with the achievements
of Helen Keller.'

*Norman Doidge, M.D. author of
The Brain That Changes Itself*
